

Report From Orlando

The fireworks were bursting high over our heads even as massive flames scorched across the cool lake before us. Music mixed with the explosions to wash over us in a thunder of inspiration. That was just one moment of many life-changing experiences from the Wealth Rendezvous recently held in Orlando, Florida.

During four astounding days Silver Cache families from around the country gathered at the exclusive Orange Lake Resort complex to celebrate their commitment to financial success. Dreams were renewed, and new skills were developed.

Did I mention, we all had a great time? Mornings were spent in conference sessions on wealth building topics. In the afternoons people fanned

out to the Disney World theme parks where they continued to learn by doing assignments even as they enjoyed the rides and attractions.

Attendees were also among the first to get a look at the new streamlined Wealth Plans and the Affiliate Compensation enhancements described below.

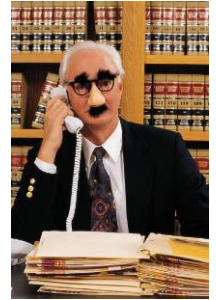

For the first time ever, ALL participants in the Rendezvous used Cache Flow dollars to pay for the conference, the town homes we stayed in, and even the tickets to Walt Disney World! The only out of pocket expense was the cost of getting there.

We are already looking forward to next year when there will be additional sessions just for younger family members, and some special surprises for returning Wealth Builders.

Remember, completion of the Wealth 101 class is required to be invited to the Rendezvous. Be sure to attend the next Wealth 101 to be presented in your area.

Good Bye BCV!

Over the years Silver Cache has grown from just providing access to silver & gold coins. Each year has brought additions to what became a complete asset-based financial system. Families now have the ability to not only build a treasury of coins, but to put their equity to work creating new streams of income.

Not just for coin purchases anymore, Wealth Plans now fund all aspects of financial progress including education, skill building, support services & even built in savings options with high APR returns.

BCV was a component of the original incentive structure that has lost its meaning in light of 100% funding and competitive market pricing for coin purchases. So, we bid farewell to an old and often misunderstood term.

As explained below, all calculations will now be based directly on the Monthly Plan Funding (MPF) amounts instead. This will greatly simplify things and make the whole system easier to understand.

Wealth Plans – Simplified

The Plan4Wealth system was designed to make a real financial difference in people's lives. Now it's a lot easier to explain as well:

100% of the monthly funding of a Wealth Plan goes to support all aspects of wealth building. The twin currencies of Coin Flow & Cache Flow dollars then buy both market priced tangible assets and the life changing education about how to use them.

In the first month, MPF is split evenly between Coin Flow & Cache Flow. Over the first year, as our teachings are applied, historically the split has changed to about 80/20. Along the way Clients learn ways to multiply the equity in their treasury and to greatly increase the net returns from their other investments.

That's it! Two paragraphs & less than 30 seconds to explain it. Simplicity has joined efficiency to make the best wealth building system ever!

Affiliate Compensation

Its also easier to explain Affiliate compensation as we've changed to calculating the Bonuses on MPF instead of BCV:

Affiliates earn Revenue of 10% to 20% on the MPF of their direct Clients. If they build an Alliance of other Affiliates, they can receive 4% to 14% on the MPF of Plans sold by their Affiliates, for up to five generations. They can also earn up to 4% on everyone in an infinite downline.

Wow! Only one paragraph there. See how simple it has become?

New – Endorsement \$\$\$

The Plan 4 Wealth system has always provided benefits to Clients who share their excitement with others. Starting in June, endorsing Silver Cache to friends and family can have benefits that last as long as their new Wealth Plans are funded.

The endorsing Client receives an ongoing discount of 10% credited to their Plan funding. Also, this discount is cumulative. That means each referred Plan generates a separate discount.

So, if as few as 10 friends join the Silver Cache family, the discounts added together could cover the entire MPF of that Client's Wealth Plan!

Read the enclosed documents carefully for the details on this exciting benefit.

New – Star Infinity Bonus

The Star Bonus percentages have been changed to reflect being based on MPF instead of BCV. At the same time we added two new levels, and extended them to all Alliance levels, to infinity!

There is no excuse not to make lots of money with a Silver Cache home-based business.

Upcoming Events

So much is happening now in Silver Cache. These sessions are the perfect time to get updated on the latest benefits for your financial plans directly by Mike and Richard. See you there!
