

Economic Stimulus Promo

The government is busy sending out checks. The politicians are giving people some extra money to spend. They hope to spur consumptive spending that will continue long after the money is gone.

Millions will likely fall into this trap & be worse off in a few months than they are today.

Are you ready for some **real** Economic Stimulus?

We've decided that the most important economy to stimulate is yours. You already know a better life comes from having more assets, and putting them to work for you. After all, shouldn't you be the one getting paid?

To permanently put more in your pocket, we came up with our own Silver Cache Economic Stimulus Promotion (ESP). This is the time to maximize the value you get from those government checks, and give your wealth building efforts a big boost.

There are two choices available, take your pick. Each will provide both immediate and long term benefits to your economic condition.

Part A – Treasury Boost

The first choice is to grab more coins while the price is down from recent highs. As you know, silver and gold have been averaging 14% to 17% gains annually for eight years now.

During this promotion, everyone can grow their Treasury, and Silver Cache will add an extra 5% to the total!

Normally, the Treasury Accelerator Option is only available to Clients who are funding their Plans at the \$1000 level.

However, for this Promotion, we are opening the Option to everyone. This means you'll get a 5%

kicker added to your bulk coin order. So, if you order \$1200 in Silver Eagles, you will actually get \$1260 worth of coins shipped. Talk about a kick in the pants!

Part B – High Yield Blast

The other choice is to create, or add to, a prepaid balance on your regular Wealth Plan. If you do this during the promotion period, you will not only get 6%, 9% or 12% APR, but Silver Cache will add another 10% credited to your account at 1% per month over the next 10 months.

This is equivalent to getting an astounding 24% APR! And don't forget, credits earned in a prepaid account are TAX FREE!

There is a \$5,000 limit per Wealth Plan for these offers. Even so, \$5,000 in a prepaid program will yield enough at 24% APR to completely cover the MPF for a \$100 Wealth Plan!

Imagine... 10 months with an active Plan, and no additional money out of pocket!

Do It Now!

If you're ready for some REAL Economic Stimulus that directly benefits you personally don't miss this opportunity. After all, these checks are a windfall outside your regular budget. Don't let this money get blown away by consumption. Put your check to work in ways that will give you reason to party every month as your equity grows. and you reach out for your own financial freedom!

FLASH! FLASH! FLASH!

This just in... The Silver Cache Board has approved extending the promotion to new Clients. Now those you care about can get a leg up on their own financial dreams.

There has never been a better time for them to start a Wealth Plan.

And don't forget, effective with June business the Endorsement Discount has become a monthly benefit that continues as long as your friends are funding their Plans. You can make some folks really happy and discount the funding cost of your own Plan, at the same time!

Promo Terms & Conditions

Participation in the Economic Stimulus Promotion is available June 1 through July 31, 2008.

A minimum of \$300 is needed for either option.

The maximum is \$5000 per Wealth Plan.

Coins purchased under Option A are in addition to the coins received from regular plan funding.

During the 10 month benefit period of Option B, any reductions in the prepaid balance will be taken from the promotional amount first, and the extra 1% monthly credit will be calculated only on the remaining balance.

Upcoming Events

So much is happening now in Silver Cache. These sessions are the perfect time to get updated on the latest benefits for your financial plans directly by Mike and Richard. See you there!
